Alexandria, VA 22301-0109

Dear Mr. Secretary:

This letter is in response to the Federal Election Commission's preliminary review of the July Quarterly Report (4/1/04- 6/30/04) of the Evan Bayh Committee. The letter (copy enclosed) indicated questions that the Commission wanted the committee to address.

1.) A review of your itemized receipts indicates a discrepancy in your aggregate election election cycle to date totals.

We have reviewed our procedures and determined that the discrepancies were the result of joint PACS which were entered separately. The first PAC was Paine Webber and UBS. We were not aware that these were the same PAC and had been tracking contributions separately. We have issued a refund check in the amount of \$4,600 to the UBS Pac for excess contributions to our primary campaign. A copy of the check is enclosed.

In addition to the above we have also identified the following committees which had been entered under different names. The Committees in question are: Chicago Board Options Exchange PAC, National Association of Insurance and Financial Advisors, Guidant PAC, Intel PAC, Independent Community Bankers PAC, Price Waterhouse Coopers PAC, and The Committee on Letter Carriers Political Education PAC. None of these committees had excess contributions and their aggregate totals have been updated. We have reviewed our information on other committee contributors to ensure that there were no other adjustments required. We are including amended pages from our second quarter FEC report reflecting the changes we made.

2.) Please amend your report to correct the discrepancies in the aggregate total for "Johnson & Johnson Employees Good Government Fund, and United Food & Commercial Workers, Active Ballot Club.

We have reviewed the contributions received from these PACS and believe that our aggregate totals are correct. We will continue to attempt to correspond with these PACS to resolve the discrepancy.
